

## Art Requirements

### Specifications:

Format - **MAC preferred**

Electronic Art - submitted by disk, flash drive or e-mail

Application Programs Used - Adobe Illustrator, Adobe Photoshop

Disk Types Accepted - CD & Flash drive

### E-mail Specs:

We recommend that any files sent to us should be compressed if possible or sent individually under separate headings to eliminate any problems during E-Mail transmissions.

### Resolution:

Electronic art resolution should be a minimum of **300 dpi** if possible.

**Note: the lower the resolution the less of the quality when reproduced.**

Art -les can be saved in the program used if compatible with the list of application programs above. We can also accept **EPS, JPEG, or TIFF** files.

For electronic art please include any specific fonts used or convert the type to outlines. If not we will try to match the font as close as possible.

### Camera Ready Artwork:

All art is to be sent as black and white line-art. Art should be proportionate to desired print size. Please be sure to specify print size.

Any halftones or gradient tones should be at least **25-55 lpi**. depending on the art, garment, and ink color.

**Note: faxes or photocopies are NOT considered camera-ready artwork.**

### Color Separations:

A separate printed page for each color and must be in black and white.

*(refer to above for specifications on resolution)*

### 4 Color Process / Simulated Process:

Please call for details **401-431-5081**.

### Standard Print Sizes:

Adult full size front / back print = **12" x 12"** - left chest **4"x4"**

Youth full size front / back = **9"x9"**

**\* Any artwork which involves typesetting, editing, or recreating will incur art charges.**
